FLUID MILK AND CREAM REPORT

July 1968

AUG 27 1968

July 18, 1968

CURRENT SERIAL RECORDS PRICES IN FLUID MILK MARKETS

July prices paid by dealers for milk used for fluid purposes (Class I prices) averaged \$6.54 per hundredweight for 170 markets, according to the Crop Reporting Board. This was up 4 cents from June and 37 cents above a year earlier. Regional averages for July ranged from 17 to 64 cents above July 1967.

Store prices to consumers for the most common grade of whole milk in 25 cities averaged 52.4 cents per half gallon in early July. This was about the same as June but nearly 2 cents above July 1967. Home-delivered half gallons for the 25 cities averaged 59.1 cents in July--up slightly from June and 2 cents above a year earlier.

New England: Dealers' Class I prices averaged \$7.06 per hundredweight for early July--unchanged from June but 25 cents above July 1967. Except for changes in reported ranges, out-of-store and home-delivered prices continued at June levels.

Middle Atlantic: Class I milk prices averaged \$6.97 per hundredweight for July--up 7 cents from June and up 36 cents from July 1967. Out-of-store and home-delivered prices continued mostly at June levels.

East North Central: Dealers' prices for fluid-use milk averaged \$6.04 per hundredweight in early July--up 7 cents from June and 46 cents above July 1967. Prices to consumers held steady in most Michigan and Ohio markets. General increases of about $\frac{1}{2}$ to 1 cent per quart were reported in most Indiana, Illinois and Wisconsin markets, although continuing price-war conditions were reported in Madison, Wisconsin and Rockford, Illinois markets.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early July--up 2 cents from June and 60 cents above July 1967. Except for price range changes in out-of-store prices in Iowa and Missouri markets, consumer prices were unchanged from June.

South Atlantic: Class I milk prices paid by dealers during early July averaged \$6.90 per hundredweight--up 4 cents from June and 17 cents above July 1967. Consumer prices at stores and home-delivered were mostly unchanged from June. The most significant changes were general increases of $\frac{1}{2}$ cent per quart in Charleston, West Virginia for both out-of-store and home-delivered milk.

East South Central: Dealer prices in July averaged \$6.58 per hundredweight--up 1 cent from June and 33 cents above July 1967. Store and home-delivered prices for consumers generally held unchanged from June.

West South Central: Class I milk prices averaged \$7.20 per hundredweight in early July--unchanged from June, but 64 cents above July 1967.

Except for changes in reported ranges for some markets, and price-war conditions reported in Oklahoma City, consumer prices continued at about the June levels.

Mountain: Dealers paid an average of \$6.60 per hundredweight for fluid-use milk in early July--up only 1 cent from June but 41 cents above July 1967. Consumer prices, both at stores and home-delivered, continued unchanged in nearly all markets.

Pacific: Dealers paid an average of \$5.86 per hundredweight for Class I milk in early July--unchanged from June but 23 cents above July 1967. Consumer prices were unchanged from June levels for both store and home-delivered milk.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data for May on total sales of fluid items in 76 marketing areas averaged about 1 percent more than a year earlier. For April, total sales were about 3 percent more than a year earlier--partly because of one extra sale day in April 1968 (one less Sunday than April 1967).

Whole milk: Sales of whole milk in 78 marketing areas during April were about the same as a year earlier.

Low-fat and skim milk: April sales of low-fat and skim milk items in 77 markets averaged nearly 19 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) in 76 areas were down about 1 percent from April 1967.

Cream Items: Cream sales in 76 areas were up about 6 percent from a year earlier. Cream sales were affected by the difference in dates for Easter, which fell in April 1968 and in March 1967.

Milk receipts: May receipts of milk from producers at plants regulated for 79 marketing areas averaged 174.0 million pounds per day--up 2 percent from a year earlier.

Milk production: June milk production in the United States was estimated at 10,955 million pounds--down 1 percent from a year earlier. June production provided 1.82 pounds of milk per person daily for all uses, compared with 1.81 pounds in May and 1.86 pounds a year earlier.

United States	170	6.17	6.50	4.50-7.43	6.54

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

- 1/ Federal order market unless footnote indicates otherwise.
- 2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
- 3/ Includes Class I premium where reported.
- 4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
- 5/ Prices may be subject to quantity discounts.
- 6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.
- 7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.
- 8/ State-regulated minimum price to dealers.
- 9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
- 10/ Unregulated market.
- 11/ Differential for preceding month.
- 12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
- 13/ Not determined.
- 14/ State-regulated minimum price prevails over Federal order minimum.
- 15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
- 16/ Class I June same as July.
- 17/ January through June prices same as July.
- 18/ Class I May and June same as July.
- 19/ Class I weighted June price \$6.35.
- 20/ June prices same as July.
- 21/ April and May same as July.
- 22/ Class I May \$5.70, June weighted \$5.80.
- 23/ June prices for gallons: at stores, p 69-974; home-delivered, 85-108¢.
- 24/ June price 54-68¢.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ().
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk. 3/ Includes Class I premium where reported. 4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Unregulated market. 8/ The following changes have been made for fall production fund subtracted: Central Arizona, Eastern South Dakota 15¢; Central Illinois, Fort Wayne, Ozarks, St. Louis, Southern Illinois 25¢; Cincinnati, Columbus, Miami Valley, Tri-State 24¢; Connecticut, Lou.-Lex.-Evansville, 40¢; Indianapolis, Inland Empire, Mass.-R.I.-N.H., New York-New Jersey 30¢; Nebraska-Western Iowa 43¢; Paducah 50¢.
9/ Based on prevailing blend price for 15-cent zone in Southern Michigan. 10/ Average price for plants supplied by principal producers' association. 11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat. 13/ State-regulated minimum price prevails over Federal order minimum. 14/ Not determined. 15/ Price changed during the month--weighted average price shown here is based on number of days each price was in effect. 16/ April blend price was \$6.37 per hundredweight for Northern Louisiana; \$6.19 for Austin-Waco, Texas.

FLUID MILK AND CREAM REPORT

U. S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY

AUGUST 1968

SEP 3 1968

August 19, 1968

CURRENT SERIAL RECORDS

PRICES IN FLUID MILK MARKETS

August prices paid by dealers for milk used for fluid purposes (Class I prices) averaged \$6.55 per hundredweight for about 170 markets, according to the Crop Reporting Board. This was up 1 cent from July and 37 cents above a year earlier. Regional averages for August ranged from 21 to 68 cents above August 1967.

Store prices to consumers for the most common grade of whole milk in 25 cities averaged 52.9 cents per half gallon in early August. This was one-half cent above July and more than 2 cents above August 1967. Home-delivered half gallons for the 25 cities averaged 59.4 cents in August -- up slightly from July and 2 cents above a year earlier.

New England: Dealers' Class I prices averaged \$7.06 per hundredweight in early August -- unchanged since June but 25 cents above August 1967. Store and home-delivered prices continued mostly at July levels.

Middle Atlantic: Class I milk prices averaged \$6.97 per hundredweight for August -- unchanged from July but 43 cents above August 1967. Store and home-delivered prices continued mostly at July levels.

East North Central: Dealers' prices for fluid-use milk averaged \$6.03 in early August -- unchanged from the revised July level but 31 cents above July 1967. Prices to consumers held steady in most Ohio, Indiana, Illinois and Wisconsin markets, although price-war conditions continued in Madison, Wisconsin and Rockford, Illinois. General increases of $\frac{1}{2}$ to 1 cent per quart were reported in most Michigan markets.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early August -- about the same as a month earlier but 59 cents above a year earlier. General increases of $\frac{1}{2}$ to 1 cent per quart from July were reported in North Dakota and South Dakota markets. Price ranges changed in Kansas and Missouri. Consumer prices held at July levels in Minnesota, Iowa, and Nebraska.

South Atlantic: Class I milk prices paid by dealers in early August averaged \$6.92 per hundredweight. This was 2 cents above July and 21 cents above August 1967. Consumer prices increased from July levels for most Virginia and Florida markets. Except for changes in price ranges, most other markets continued at July price levels for both out-of-store and home-delivered milk.

East South Central: Dealer prices for Class I milk averaged \$6.58 per hundredweight in August -- unchanged from July but 25 cents above August 1967. Store and home-delivered prices for consumers generally held unchanged from July.

West South Central: Class I milk prices averaged \$7.24 per hundredweight in early August -- up 4 cents from July and 68 cents above August 1967. Consumer prices increased 1 cent per quart in Louisiana markets and decreased in Lubbock, Texas. Other markets in the region generally held at July levels.

Mountain: Dealers paid an average of \$6.59 per hundredweight for fluid-use milk in early August -- down 1 cent from July but 38 cents above August 1967. Consumer prices, both at stores and home-delivered, increased from July levels in Montana markets but held mostly unchanged in the rest of the region.

Pacific: Dealers paid an average of \$5.86 per hundredweight in early August -- unchanged since June but 23 cents above August 1967. Store and home-delivered milk prices increased 1 to 2 cents per quart in most Oregon markets but held steady in Washington and California.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data for June on total sales of fluid items in 75 marketing areas averaged about 2 percent below a year earlier. For May, total fluid sales were about 1 percent more than a year earlier.

Whole milk: Sales of whole milk in 77 marketing areas during May were down about 2 percent from May 1967.

Low-fat and skim milk: May sales of low-fat and skim milk items in 76 markets averaged more than 16 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) in 75 market areas were down about 4 percent from May 1967.

Cream items: Cream sales in 75 areas were down more than 3 percent from a year earlier.

Milk receipts: June receipts of milk from producers at plants regulated for 79 marketing areas averaged 168.5 million pounds per day -- up 1 percent from a year earlier.

Milk production: July milk production in the United States was estimated at 10,208 million pounds -- down 1 percent from a year earlier. June 1968 milk production has been revised slightly to 10,937 million pounds. Total milk production in the first 7 months of 1968 was about 1 percent less than the same period a year earlier. July production provided 1.64 pounds of milk per person daily for all uses, compared with 1.81 pounds in June and 1.67 pounds for July 1967.

United States	170	6.18	6.54	4.50-7.81	6.55

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.

^{2/} Revised.

1/ Federal order market unless footnote indicates otherwise.

2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Includes Class I premium where reported.

4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prices may be subject to quantity discounts.

6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.

7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.

8/ State-regulated minimum price to dealers.

9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

10/ Unregulated market.

11/ Differential for preceding month.

12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).

13/ Not determined.

14/ State-regulated minimum price prevails over Federal order minimum.

15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

16/ July same as August.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in ().
2/ Premium (above Federal order minimum) as reported by principal producers' association. May not apply to all Class I or all pooled milk. 3/ Includes Class I premium where reported. 4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Unregulated market. 8/ The following changes have been made for fall production fund subtracted: Central Arizona, Eastern South Dakota 15¢; Central Illinois, Fort Wayne, Ozarks, St. Louis, Southern Illinois 25¢; Cincinnati, Columbus, Miami Valley, Tri-State 24¢; Connecticut, Lou.-Lex.-Evansville 40¢; Indianapolis, Inland Empire, Mass.-R.I.-N.H., N.Y.-N.J. 30¢; Nebr.-Western Iowa, 42¢; Paducah 50¢. 9/ Based on pre-vailing blend price for 15-cent zone in Southern Michigan. 10/ Average price for plants supplied by principal producers' association. 11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat. 13/ State-regulated minimum price prevails over Federal order minimum. 14/ Not determined. 15/ Price changed during the month--weighted average price shown here is based on number of days each price was in effect. 16/ May price \$5.45.

FLUID MILK AND CREAM REPORT

OCT 3 1968

SEPTEMBER 1968

CURRENT SERIAL RECORDS

September 19, 1968

PRICES IN FLUID MILK MARKETS

September prices paid by dealers for milk used for fluid purposes (Class I prices) averaged \$6.55 per hundredweight for about 170 markets, according to the Crop Reporting Board. This was unchanged from August but 27 cents above a year earlier. Regional averages for September ranged from 15 to 44 cents above September 1967.

Store prices to consumers for the most common grade of whole milk in 25 cities averaged 53.2 cents per half gallon in early September. This was slightly above August and 2 cents above September 1967. Home-delivered half gallons for the 25 cities averaged 59.7 cents in September--about the same as August but $2\frac{1}{2}$ cents above September 1967.

New England: Dealers' Class I prices averaged \$7.06 per hundredweight in early September--unchanged since June but 25 cents above September 1967. Store and home-delivered prices continued at August levels except for Vermont where prices varied from 1 cent per quart lower to 1 cent per quart higher than August.

Middle Atlantic: Class I milk prices averaged \$6.98 per hundredweight in early September--about the same as August but $3\frac{1}{4}$ cents above September 1967. Store and home-delivered milk prices continued mostly at August levels.

East North Central: Dealer prices for fluid use milk averaged \$6.05 per hundredweight in early September--unchanged from the August level but 20 cents above September 1967. Except for changes in price ranges, most markets continued at August levels.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early September--unchanged from August but 44 cents above a year earlier. Consumer prices both at stores and home-delivered, generally held at August levels except in Sioux City, Iowa, and St. Louis, Missouri, where 1 cent per quart increases were reported.

South Atlantic: Class I milk prices paid by dealers in early September averaged \$6.92 per hundredweight--unchanged from August but 21 cents above September 1967. Store prices to consumers and home-delivered milk prices held near August levels. Price ranges changed in several markets.

East South Central: Dealer prices for Class I milk averaged \$6.60 per hundredweight in early September--up slightly from August and 15 cents above September 1967. Store and home-delivered prices for consumers were unchanged except in Mississippi where 1 cent per quart increases were reported.

UNITED STATES DEPARTMENT OF AGRICULTURE

Statistical Reporting Service

Da 1-3 (9-68)

Crop Reporting Board

Washington, D. C. 20250

West South Central: Class I milk prices averaged \$7.24 per hundredweight in early September--unchanged from August but 34 cents above September 1967. Consumer prices, both at stores and home-delivered continued at August levels.

Mountain: Dealers paid an average of \$6.58 per hundredweight for fluid use milk in early September--down 2 cents from August but up 36 cents from September 1967. Except for 1 cent per quart increases reported for Albuquerque, New Mexico, consumer prices for milk held at August levels.

Pacific: Dealers paid an average of \$5.86 per hundredweight for fluid-use milk--unchanged from August but 22 cents above September 1967. Consumer prices for Washington and most California markets continued at August levels. Los Angeles and Santa Barbara, California, store and home-delivered prices, dropped from August levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data for July on total sales of fluid items in about 70 marketing areas averaged 2 percent above a year earlier. For June, total fluid sales were nearly 3 percent below a year earlier. For the first 6 months of 1968, total sales were 1 percent above the same period a year earlier. Relatively large gains in sales of skim milk items continue to offset declines in whole milk and cream.

Whole milk: Sales of whole milk in 77 marketing areas during June were down 5 percent from June 1967.

Low-fat and skim milk: June sales of low-fat and skim milk items in 76 markets averaged more than 11 percent above a year earlier. Cumulative sales for the first half of 1968 were 15 percent above sales for the same period in 1967.

Milk and cream mixtures: Sales of mixtures (mostly half and half) in 75 market areas were down 7 percent from June 1967.

Cream items: Cream sales during June in 75 areas were down nearly 7 percent from a year earlier.

Milk receipts: July receipts of milk from producers at plants regulated for 69 marketing areas averaged 121.7 million pounds per day--up 1 percent from a year earlier.

Milk production: August milk production in the United States was estimated at 9,567 million pounds--down 1 percent from a year earlier. August production provided 1.53 pounds of milk per person daily for all uses, compared with 1.64 pounds in July and 1.57 pounds a year earlier.

United States	170	6.28	6.55	5.30-7.81	6.55

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.

^{2/} Revised.

1/ Federal order market unless footnote indicates otherwise.

2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Includes Class I premium where reported.

4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prices may be subject to quantity discounts.

6/ Prices in paper containers usually 1/2 to 1 cent per quart higher than glass.

7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.

8/ State-regulated minimum price to dealers.

9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

10/ Unregulated market.

11/ Differential for preceding month.

12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).

13/ Not determined.

14/ State-regulated minimum price prevails over Federal order minimum.

15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

16/ Prices effective March 3, 1968 through August 31, 1968: wholesale half gallon 47¢, gallon \$1.00, home delivered quarts 31 1/2¢, half gallon 61 1/2¢, gallon \$1.27; 10 quart home dispenser \$3.08.

17/ January through August prices same as September.

18/ July price 65¢.

19/ August price same as September.

20/ July and August same as September.

21/ June, July and August same as September.

2/ Premium (above Federal order minimum as reported by principal producers' association. May not apply to all Class I or all pooled milk. 3/ Includes Class I premium where reported. 4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Unregulated market. 8/ The following changes have been made for fall production fund subtracted: Central Illinois, Ozarks, St. Louis, Southern Illinois 15¢; Cincinnati, Columbus, Miami Valley, Tri-State 24¢; Indianapolis 30¢; Louisville-Lexington-Evansville 40¢; Paducah 50¢. 9/ Based on prevailing blend price for 15-cent zone in Southern Michigan.
10/ Average price for plants supplied by principal producers' association. 11/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order.
12/ State-regulated minimum prices at basic test of 4% for South Carolina and Louisiana adjusted to 3.5% fat.
13/ State-regulated minimum price prevails over Federal order minimum. 14/ Not determined.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown; all months adjusted to a comparable basis where marketing areas have been changed. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 27. 3/ Data from State milk control agency. 4/ Delaware Valley less sales in New Jersey as reported by N. J. Office of Milk Industry. 5/ Excludes sales in Mississippi portion of Memphis marketing area. 6/ Data from Federal and State sources. 7/ Average fat test for markets where milkfat totals are available.

Table 8.--Average daily receipts of milk from producers and number of producers for plants under Federal or State regulation, by market, July 1968 1/

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 27. 3/ Data not comparable with a year earlier--not included in totals. 4/ Federal totals less State data on receipts from New Jersey or Mississippi producers where applicable. 5/ Data from State sources. 6/ Data from Federal and State sources. 7/ Excludes Mass.-R.I.-N.H., East Ohio-West. Pa., Chicago Regional, Minn.-N.D. and Nebr.-West. Iowa Federal orders, for which data are not comparable with a year earlier. 8/ Estimated. 9/ Effective July 1, 1968, includes former Northeastern Ohio, Youngstown-Warren and Wheeling, W. Va. Federal order markets plus western Pennsylvania. 10/ Effective July 1, 1968, includes former Madison, Milwaukee, Northeastern Wisconsin, North-western Indiana and Rock River Valley Federal order markets with additional expansion.

MARKETS COMBINED IN SALES AND RECEIPTS TABLES

The following markets have been combined in monthly sales and receipts tables of this report; Ohio-Cincinnati, Columbus, Miami Valley, Northwestern; Indiana-Fort Wayne, Indianapolis; Illinois-Central Illinois, Southern Illinois; Michigan-Upper Peninsula, Southern and Upstate; Minnesota-Duluth-Superior and Minneapolis-St. Paul; Iowa-Cedar Rapids, Des Moines, North Central, Quad Cities-Dubuque; Missouri-Kansas City, Ozarks and St. Louis; South Dakota-Black Hills and Eastern; Kansas-Neosho Valley and Wichita; West Virginia-Appalachian, Clarksburg, Tri-State; Florida-Southeastern Florida and Tampa Bay; Upper Florida; Two Kentucky-Indiana areas-Louisville-Lexington-Evansville and Paducah; Tennessee-Chattanooga, Knoxville, Memphis and Nashville; Mississippi-Mississippi, Gulf Coast (S), Northeast(S) and Southwest (S); Arkansas-Central and Ft. Smith; Louisiana-New Orleans and Northern; Texas-Austin-Waco, Central West, Corpus Christi, Lubbock-Plainview, North Texas, Panhandle and San Antonio; Colorado-Eastern and Western; and Washington-Inland Empire and Puget Sound.

OCTOBER 1968

PRICES IN FLUID MILK MARKETS

October prices paid by dealers for milk used for fluid purposes (Class I prices) averaged \$6.65 per hundredweight for about 170 markets, according to the Crop Reporting Board. This was up 5 cents from September and 35 cents above a year earlier. Regional averages for October ranged from 13 to 55 cents above October 1967.

Store prices to consumers for the most common grade of whole milk in 25 cities averaged 53½ cents per half gallon in early October. This was slightly above September and more than 2 cents above October 1967. Home-delivered half-gallons for the 25 cities averaged just over 60 cents in October---slightly above September and 3 cents above October 1967.

New England: Dealers' Class I prices averaged \$7.30 per hundredweight in early October--up 11 cents from the revised September price. A 2½ cent increase in dealer price level became effective September 15 for New England markets. The early October price level was 49 cents above a year earlier.

Consumer prices, both at stores and home-delivered, generally increased 1 cent per quart in all markets.

Middle Atlantic: Class I milk prices averaged \$7.19 per hundredweight in early October--up 10 cents from the revised September level and 55 cents above October 1967. New York, New Jersey, and Philadelphia area Class I and consumer prices moved up from September levels in line with New England markets. Class I and consumer prices were unchanged in other Pennsylvania markets.

East North Central: Dealer prices for fluid use milk averaged \$6.05 per hundredweight in early October--unchanged since August but 17 cents above October 1967. Except for continuing changes in price ranges, consumer prices in most markets continued at August and September levels.

West North Central: Dealers' Class I prices averaged \$6.01 per hundredweight in early October--about the same as September but 35 cents above a year earlier. Consumer prices, at stores and home-delivered, generally held at September levels.

South Atlantic: Class I milk prices paid by dealers in early October averaged \$7.04 per hundredweight--up 9 cents from September and 33 cents above October 1967. Consumer prices increased ½ to 1 cent per quart in Delaware, Maryland, District of Columbia, and most South Carolina markets. Most other markets in the region held prices unchanged from September.

East South Central: Dealer prices for Class I milk averaged \$6.60 per hundredweight in early October--unchanged from September but up 13 cents from October 1967. Store prices to consumers and home-delivered milk prices held unchanged from September levels.

CURRENT SERIAL RECORDS

West South Central: Class I milk prices averaged \$7.25 per hundredweight in early October--about the same as September but 31 cents above October 1967. Except for changes in price ranges in several markets, store prices to consumers and home-delivered milk prices held at September levels.

Mountain: Dealers paid an average of \$6.56 per hundredweight for fluid use milk in early October--down 2 cents from September but 33 cents above October 1967. Except for changes in price ranges for some Colorado and Idaho markets, consumer milk prices held at September levels.

Pacific: Dealers paid an average of \$5.86 per hundredweight for fluid use milk--unchanged since August but 20 cents above October 1967. Consumer prices in the region generally held stable at September levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: Preliminary data for August on total sales of fluid items in about 70 marketing areas averaged 4 percent above a year earlier. Part of this increase was the result of heavier sales in August in preparation for the Labor Day weekend. For July, total fluid sales were about $2\frac{1}{2}$ percent above a year earlier. Part of the increase for July may be explained by one additional sales day compared with July 1967.

Whole milk: Sales of whole milk in 72 marketing areas during July were about the same as July 1967.

Low-fat and skim milk: July sales of low-fat and skim milk items in 71 markets averaged 17 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) in 70 market areas were down about 3 percent from a year earlier.

Cream items: Cream sales during July in 70 areas were down 1 percent from July 1967.

Milk receipts: August receipts of milk from producers at plants regulated for 69 marketing areas averaged 118.4 million pounds per day--up 2 percent from a year earlier.

Milk production: September milk production in the United States was estimated 9,058 million pounds--down 1 percent from a year earlier. September production provided 1.50 pounds of milk per person daily for all uses, compared with 1.53 pounds in August and 1.52 pounds a year earlier.

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.

2/ Revised.

1/ Federal order market unless footnote indicates otherwise.

2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Includes Class I premium where reported.

4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prices may be subject to quantity discounts.

6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.

7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.

8/ State-regulated minimum price to dealers.

9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

10/ Unregulated market.

11/ Differential for preceding month.

12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).

13/ Not determined.

14/ State-regulated minimum price prevails over Federal order minimum.

15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

g. Glass. p. Paper. P. Plastic.

16/ Store gallons May through September same as October.

17/ September same as October.

18/ September \$7.15.

19/ Class I prevailing price effective August 19, 1968.

20/ Store half gallons August-September 45-53¢.

FLUID MILK AND CREAM REPORT

NOVEMBER 1968

NOV 26 1968

November 18, 1968

CURRENT SERIAL RECORDS

MILK PRICE AND SALES HIGHLIGHTS

November prices paid by dealers for milk used for fluid purposes (Class I) averaged \$6.65 per hundredweight for about 170 markets. This was unchanged from October but 34 cents above November 1967. Regional averages for early November ranged from 13 to 55 cents above November 1967, according to the Crop Reporting Board.

Store prices to consumers in 25 cities in early November averaged 53½ cents per half gallon for the most common grade of whole milk. This was the same as October but more than 2 cents above November 1967. Home-delivered half gallons for the 25 cities averaged about 60 cents in November--the same as October but 3 cents above November 1967. The home-delivered prices are subject to quantity discounts.

Preliminary data on total sales of fluid products for September in about 70 marketing areas averaged 1 percent below a year earlier. The additional Sunday in September this year reduced average daily sales. Revised August sales were 4 percent above August 1967. Total sales during January-September were about 1 percent above the same period a year earlier.

PRICES IN FLUID MILK MARKETS

New England: Dealers' Class I prices averaged \$7.31 per hundredweight in early November--about the same as October but 50 cents above a year earlier. Consumer prices in the region, both at stores and home-delivered, generally were the same as a month earlier.

Middle Atlantic: Class I milk prices averaged \$7.19 per hundredweight in early November--unchanged from October but 55 cents above November 1967. Except for changes in price ranges, consumer prices held at October levels in most markets.

East North Central: Dealer prices for fluid-use milk averaged \$6.06 per hundredweight in early November--unchanged from the revised October level but 18 cents above November 1967. Consumer prices continued near October levels, but changes in price ranges were recorded for whole milk sold at stores.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early November--unchanged from the revised October level but 31 cents above November 1967. Consumer prices, at stores and home-delivered, held at October levels except for changes in price ranges for several markets.

South Atlantic: Class I milk prices paid by dealers in early November averaged \$7.04 per hundredweight--unchanged from October but 31 cents above November 1967. Consumer prices, both at stores and home-delivered, held unchanged from October for most markets.

East South Central: Dealer prices for Class I milk averaged \$6.60 per hundredweight in early November--unchanged from October but 13 cents above November 1967. Store prices to consumers and home-delivered milk prices continued at October levels.

West South Central: Class I milk prices averaged \$7.25 per hundredweight in early November--unchanged from October but 31 cents above November 1967. Store and home-delivered milk prices to consumers held at, or near, October levels.

Mountain: Dealer prices averaged \$6.59 per hundredweight for fluid-use milk in early November--up 3 cents from October and 32 cents above November 1967. Consumer prices generally held at October levels.

Pacific: Class I prices paid by dealers averaged \$5.87 per hundredweight in early November--about the same as October but 21 cents above November 1967. Except for changing price ranges in Oregon, consumer milk prices generally continued at October levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: For August, total sales were nearly 4 percent above a year earlier. Part of the increase was the result of heavier sales in preparation for the Labor Day weekend. The sales data represent about 70 marketing areas.

Whole milk: Sales of whole milk during August were about 1 percent above a year earlier. Sales for the first 8 months of 1968 were slightly below the same period for 1967.

Low-fat and skim milk: August sales of low-fat and skim milk items averaged 17 percent above a year earlier. Since January, sales have averaged 11 to 19 percent above corresponding year-earlier months.

Milk and cream mixtures: Sales of mixtures (mostly half and half) were down 3 percent from August 1967. This continued the trend of reduced sales compared with 1967.

Cream items: Cream sales during August were down less than 1 percent from a year earlier. For the first 8 months of 1968, cream sales were about 2½ percent below the same period a year earlier.

Milk receipts: September receipts of milk from producers at plants regulated for about 70 marketing areas averaged nearly 120 million pounds per day--up about 2 percent from a year earlier.

Milk production: October milk production in the United States was estimated at 9,159 million pounds--about equal to a year earlier. October production provided 1.46 pounds of milk per person daily, compared with 1.48 pounds a year earlier.

United States	170	6.31	6.65	5.30-7.81	6.65

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 5.

^{2/} Revised.

1/ Federal order market unless footnote indicates otherwise.

2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Includes Class I premium where reported.

4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prices may be subject to quantity discounts.

6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.

7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.

8/ State-regulated minimum price to dealers.

9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

10/ Unregulated market.

11/ Differential for preceding month.

12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).

13/ Not determined.

14/ State-regulated minimum price prevails over Federal order minimum.

15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

16/ October negotiated Class I \$5.62.

17/ October same as November.

18/ Glass only 49¢.

19/ Negotiated Class I August through October same as November.

20/ October handler differential .082. 21/ Price war.

g. Glass.

p. Paper.

P. Plastic.

FLUID MILK AND CREAM REPORT

U. S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY

Release: 3:00 P.M. (EST)
December 18, 1968

DECEMBER 1968

JAN 6 1969

MILK PRICE AND SALES HIGHLIGHTS

December prices paid by dealers for milk used for fluid purposes (Class I) averaged \$6.65 per hundredweight for about 170 markets. This was unchanged since October but 32 cents above December 1967. Regional averages for early December ranged from 2 to 55 cents above December 1967, according to the Crop Reporting Board.

Store prices to consumers in 25 cities in early December averaged 53½ cents per half gallon for the most common grade of whole milk. This was about the same as October and November but more than 2 cents above December 1967. Home-delivered half gallons for the 25 cities averaged about 60½ cents in December--up slightly from November and 3 cents above December 1967. The home-delivered prices are list prices before deductions for quantity discounts.

Preliminary data on total sales of fluid products for October in about 70 marketing areas averaged 3 percent above a year earlier--October 1968 had one less Sunday than in 1967. Revised September sales were 2 percent below September 1967. Total sales during January-October were about 1 percent above the same period a year earlier. Continued increased sales of low-fat and skim milk items more than offset declines in whole milk and cream sales.

PRICES IN FLUID MILK MARKETS

New England: Dealers' Class I prices averaged \$7.31 per hundredweight in early December--unchanged from November but 53 cents above a year earlier. Consumer prices, both at stores and home-delivered, were unchanged from November.

Middle Atlantic: Class I milk prices averaged \$7.19 per hundredweight in early December--unchanged since October but 55 cents above December 1967. Except for changes in price ranges, consumer prices held at October levels.

"Effective January 1, 1969, the Statistical Reporting Service plans to discontinue calculation and publication of 5-year averages that appear in this report. The report will contain data for the current and the two preceding years. It is believed that changes in agriculture have decreased the value of the five-year averages for making comparisons."

East North Central: Dealer prices for fluid-use milk averaged \$6.06 per hundredweight in early December--unchanged since October but 18 cents above December 1967. Consumer prices continued near November levels for the region.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early December--unchanged since October but 31 cents above December 1967. Consumer prices held at November levels.

South Atlantic: Class I milk prices paid by dealers in early December averaged \$7.04 per hundredweight--unchanged since October but 31 cents above December 1967. Store and home-delivered prices to consumers were unchanged for most markets.

East South Central: Dealer prices for Class I milk averaged \$6.06 per hundredweight in early December--unchanged since October but 13 cents above December 1967. Prices to consumers held at November levels in most markets.

West South Central: Class I milk prices averaged \$7.25 per hundredweight in early December--unchanged since October but 29 cents above December 1967. Except for changes in price ranges, consumer prices held at November levels.

Mountain: Dealer prices averaged \$6.06 per hundredweight for fluid-use milk in early December--unchanged from November but 29 cents above December 1967. Consumer prices continued near November levels.

Pacific: Class I prices paid by dealers averaged \$5.87 per hundredweight in early December--unchanged from November and 2 cents above December 1967. Consumer prices continued at November levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: For September, total sales were 2 percent below a year earlier. Increased sales in late August were made in preparation for the Labor Day weekend at the start of September. In addition, there was one less sales day due to the extra Sunday in September 1968. The sales data represent about 70 marketing areas.

Whole milk: Sales of whole milk during September were about 4 percent below a year earlier.

Low-fat and skim milk: September sales of low-fat and skim milk items averaged 11 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) were down 9 percent from September 1967.

Cream items: Cream sales during September were down 7 percent from a year earlier.

Milk receipts: October receipts of milk from producers at plants regulated for about 70 marketing areas averaged about the same as last month but up 2 percent from a year earlier.

Milk production: November milk production was estimated at 8,793 million pounds--about equal to a year earlier. November production provided 1.45 pounds of milk per person daily for all uses, compared with 1.47 pounds a year earlier.

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

^{2/} Revised.

Santa Barbara 7/ ..	27½	54	108	2.70	

1/ Federal order market unless footnote indicates otherwise.

2/ Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Includes Class I premium where reported.

4/ Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prices may be subject to quantity discounts.

6/ Prices in paper containers usually ½ to 1 cent per quart higher than glass.

7/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana and at 3.8% for California have been adjusted to 3.5% fat.

8/ State-regulated minimum price to dealers.

9/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

10/ Unregulated market.

11/ Differential for preceding month.

12/ New York-New Jersey Federal Order minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).

13/ Not determined.

14/ State-regulated minimum price prevails over Federal order minimum.

15/ Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.

16/ Negotiated Class I October \$6.25.

17/ November same as December.

18/ October .082.

19/ Glass only 49¢.
